ADAM DAVIS	GRAPHIC DESIGNER
RESUME	2025
HELLO@ADAMOS.ME	ADAMOS.ME

I’m Adam Davis—a Full Sail University Digital Media grad and multidisciplinary designer who’s spent the past decade helping brands, products, and campaigns take shape. I’ve worked with everything from early-stage startups to established labels, and my work stretches across identity systems, print collateral, and responsive UI/UX. I love taking big, sometimes messy ideas and turning them into typography, layouts, and interactions that feel clear and intentional.

Outside of work, I recharge with my wife, our two girls, and our dog Otis—usually outdoors, behind a macro lens, or lost in music and art. All of that curiosity finds its way back into my design practice. I stay hands-on with InDesign, Photoshop, Illustrator, CSS, HTML, Java, and various APIs so I can bridge creative intent with real-world implementation.
